Private Practice. Personal Care.

Consistency, convenience and personal attention—
all the virtues of individualized, private care.

Consistent Care

At *The Anatomy Shop* you won't get handed off to an assistant or aide.

Instead, you'll get the same therapist for every visit—consistency from the beginning of your treatment all the way to your recovery.

As one of the most important aspects of therapy, this will quicken your recovery time.

Minutes Away

When you need therapy, you don't want to have to go too far. And you don't have to. Conveniently located right in the community of Mukwonago, our practice is just minutes away.

Add to this the flexible hours of operation (evenings available) and you have optimal convenience for your treatment.

“Since 1984, I've emphasized a hands-on individualized approach. Each patient has a unique personality and circumstances which need to be taken into account when developing a treatment plan. I enjoy putting the pieces of the puzzle together to achieve the best possible outcome for each patient.”

— Joan Zachow PT & Owner
of *The Anatomy Shop*

One Patient At A Time

Our policy is simple: We never see more than one patient at a time. So when you come in for treatment, you'll get undivided attention and high quality care.

In addition, you have access to commercial grade fitness equipment including cardio and multi gym pieces in an open and pleasant facility with easy accessibility.
